

Wisconsin FAASTeam presents:

# **Something Not Working In Washington - EAA Chapter 252 IMC Club Monthly Meeting**

IFR Scenario presented by Tony Kolar , CFI-I  
Guest instrument pilots and students welcome.  
Scenario based learning in the Instrument  
environment. Monthly meeting of the EAA  
Chapter 252 IMC Club.

Use real world scenarios to increase your level of  
safety in the IFR environment. Safe instrument  
flying is a matter of mitigating risk, personal  
minimums and standard operating procedures. If  
you have and use sound judgment, establish  
personal minimums and good procedures, you  
can enjoy a long and successful career of  
instrument flying. The EAA Chapter 252  
(Oshkosh WI) IMC Club provides organized  
“hangar flying” focused on building proficiency in  
instrument flying. An instrument rating is not  
required for attendance.

**Directions:** Leadership Classroom -- please use employee  
parking entrance to Aviation Center (North of main Museum  
entrance) and enter doors under the simulated control tower  
cab.

#### **A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need  
alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the  
“Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.
